Module 1
Reading and Short Answer Assignment

Assigned: Wednesday, 05/29/2024
Due: Wednesday, 06/05/2024 by 11:59:59 PM

This week your assignment is to read the PyTorch with Examples tutorial to (re)familiarize yourself with pytorch: https://pytorch.org/tutorials/beginner/pytorch_with_examples.html

Questions

Please write a short response (4-5 sentences / short paragraph) to each of the following questions / the following question. Your responses will be graded for accuracy, critical thinking, and clarity. You may use any common word processing or text format. Please upload your answers by the due date.

Question 1: Explain the concept of a tensor, and the differences in PyTorch between a tensor, a parameter, and a gradient.
