Module 4

Programming Assignment

Programming assignments are due by 11:59:59 PM on the day of the next lecture. All programming assignments are graded for clarity and functionality. Your code should be well-organized and include helpful comments where appropriate. Please upload your completed assignment to canvas as a zip file.

This week your assignment is to implement a PyTorch module that performs multihead attention (MHA). Please see the file **mha.py** for more details.

Your deliverables for this assignment are:

- A completed *mha.py* file which includes your implementation of a multihead attention module
